DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 18-27 & 36 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The element or parameter T is unknown. Examination of the specification yielded no further information.

Allowable Subject Matter

Claims 1-17 & 28-35 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the claims as supported by the specification differs from the prior art in that it does not teach a hydrogen storage bed which is a pressure container within which is disposed a hydrogen storage alloy, and an integrated thermal management system. The integrated thermal management system includes a heat generation system, a cooling system and a heat distribution system.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See US PTO-892.
